

# DRINKING WATER TESTING CLINIC

## Page County – July 17, 2018

Does your water come from a well, spring, or cistern?

Do you want to learn more about the quality of your drinking water?

### How it works:

1. At a brief informational meeting, pick up a sample kit and get instructions to collect your household water sample.
2. Collect a sample from your tap at home and complete a short questionnaire.
3. Drop off sample at a designated location and time.
4. About four (4) weeks later, come back to get your confidential test results, an explanation of what the numbers mean, and information on how to handle any problems that are present.

The water testing covers the following parameters and potential contaminants: **iron, manganese, sulfate, hardness, sodium, copper, nitrate, arsenic, fluoride, pH, total dissolved solids, coliform bacteria, e. coli bacteria, and lead.** The cost for the sample analysis is \$50\*, which is due at the kick-off meeting when participants receive their sample kit. Please make checks payable to **“Treasurer, Virginia Tech”**. **Space is limited and pre-registration required.** Reserve your space today; mail registration form and check to Winchester office of Virginia Cooperative Extension in the Northern Shenandoah Valley or use website to pre-pay and pre-register using credit card at <https://register.ext.vt.edu/portal/events/reg/participantTypeSelection.do?method=load&entityId=111816>.

**For more information, contact Mark Sutphin (540-665-5699) or your local Extension office:**

VCE-Page County . . . . . 540-778-5794
